INTRODUCTION TO GARDENING THE BIODYNAMIC WAY

with Dr Sue Peat and Douglas Davidson

Sunday 28 September 14.00 - 17.00

Biodynamics is an organic method of cultivation arising out of Rudolf Steiner's Spiritual research. It was his response to questions from farmers who were unhappy with 'chemical' agriculture. Biodynamics works with the rhythms of the movements of the Sun, Moon, planets and stars, to which the plants respond.

The workshop will cover the background of the biodynamic planting calendar and using the biodynamic preparations. It's autumn so we will focus on sharing tips for harvesting, composting and preparing your garden for winter. For the last hour, we'll stir the horn manure preparation (known as 500), so bring an empty screw top bottle if you would like to take some home. A 500ml bottle is enough for an average garden. The workshop is suitable for those new to biodynamics and for anyone who would like to give their garden, window boxes or house plants an autumn treat!

Sue and Douglas are enthusiastic gardeners with lots of practical experience in biodynamic gardening.

All are welcome, no need to book.

A PATH OF KNOWLEDGE TO THE ANGELS

Lecture and Performance by Steffen Hartmann

Friday 10 October 19.30pm – 21.00pm

What can we make of spiritual experiences? Do they happen to us or are they invented by us? How can we distinguish between reality and illusion in such instances? Can there be a scientific basis for approaching the spirit?

Steffen Hartmann addresses these questions by showing how following the methodical path of anthroposophy - beginning with pure thought and meditation - can lead to spiritual experience - the ability to access, as conscious individuals, the realm of angelic beings.

Steffen Hartmann holds talks, seminars and concerts worldwide. He founded the MenschMusik Institute in Hamburg with Matthias Bölts and is the leader of the Rudolf Steiner Haus Hamburg branch of the Anthroposophical Society. His new book, "Angel Thinking - Consciousness, Meditation and Human Destiny" was published by Temple Lodge in April 2025..

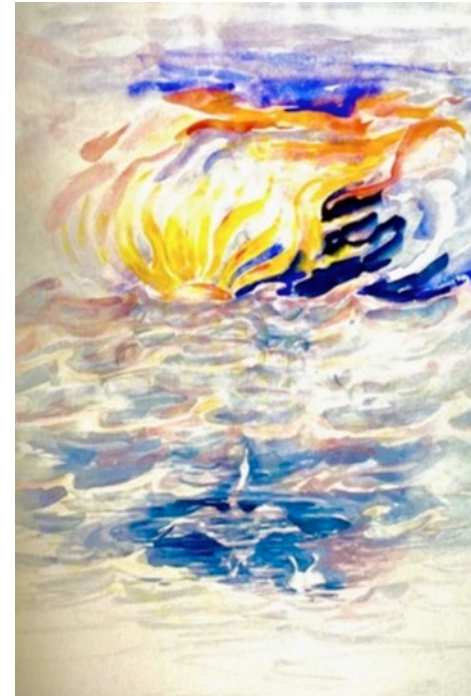

Cost: £15 cash on the door.

THE LOVE SPHERE OF THE EARTH

Talk and Book Launch
with Marko Pogačnik

Friday 7 November 19:00 - 20:30

What if the power of love isn't just a human privilege? What if it is a universal quality that links together all the elemental beings of nature in a permanent unity? What are the potentials of the human heart that would enable us to join in this dance of universal love?

The dramatic situation of the present epoch demands that we listen to the subtle shifts within the body of the Earth and within our own bodies. In this talk Marko Pogačnik introduces his experiences of the recent reappearance of the Love Sphere of the Earth, an etheric counterpart to the biosphere.

Marko Pogačnik is a Slovenian artist and author of international renown. AFTER ATLANTIS

Rudolf Steiner and the New Prehistory

A one-day seminar with author Andrew Welburn

Saturday 13 December 10.00 - 16:00

Rudolf Steiner is unrivalled for 'the big perspective' on human origins – and potential. New revolutionary scientific ideas are just catching up.

The Stone Age no longer stands for brutish cave men. Its stunning cave-paintings are now known to be visionary journeys, reflecting a clairvoyant consciousness under whose guidance ours emerged. Spirituality made us

human, yet there were other humans, like the Atlanteans mentioned by Steiner. Welburn has argued persuasively that the Neanderthals – nowadays acknowledged as highly intelligent, deeply creative and lovers of music – are a humanity of that type. These stages of human origin will be richly explored in this seminar centred around Welburn's new book, "After Atlantis".

A distinguished scholar, **Andrew Welburn** has held fellowships from the British Academy and the Frances Yates Trust at the universities of London and Oxford. Andrew's wider interests have included spiritual and religious history, especially the deeper roots of Christianity in the evolution of humanity. His most recent books are "Neanderthals and Atlantis" (2024) and "After Atlantis" (2025).

THE QUEST FOR THE PHILOSOPHERS STONE (ZOOM)

with Howard Smith

24 October

Mention of the mythical 'Philosopher's Stone' goes back at least as far as 300AD, but practical efforts to try and make it began in the Middle Ages. It was a stone yet not a stone, it is nowhere yet everywhere, a tincture, a means of making gold, of healing, of prolonging life. It also figures in Rosicrucian training. What is the truth of this mysterious 'Stone'?

Howard Smith is a life-long student of Anthroposophy and has a PhD in Chemistry and founded the Science Group of the ASGB. He believes that modern chemists are the alchemists of today.

THE FUTURE EVOLUTION OF THE HUMAN BEING IS A MUSICAL ONE (ZOOM)

with Eric Klein

21 November

The harmony of the spheres, arising from the relationships between the orbits of the heavenly bodies, comes to us from the Pythagorean school of Greek philosophy. Musical intervals reflect these relationships, which we experience within our evolving physical and spiritual constitution. They are visible in the music of great composers such as Bach to Shostakovich and are the underlying foundations upon which human and spiritual beings are evolving together.

Eric Klein was born and raised in an Anthroposophic home in New York and was educated at the Rudolf Steiner School in New York City. He has worked as a performing musician, composer, conductor, teacher and lecturer.

THE DESPERATE FUTURE AND THE BIRTH OF THE LIGHT

with Andrew Welburn

28 November

Modern life is powerfully driven: but is it not by an underlying panic terror? People often seem desperate to get more out of life, but are baffled how to reach it. We may clutch at idols, or else the openness of the future confronts us where we have least defences, but to believe in it – and in our modern situation – is the only way to divine the light, and our angel-destiny.

Andrew Welburn has been an academic in the fields of English Literature and biblical interpretation and history. A life-long Anthroposophist, he has written several books on Steiners' philosophy, esotericism, and Christianity, and on the prophet Zarathustra.

No need to book, no charge.

REFINED BREATHING - WHY WE NEED IT NOW (ZOOM)

with Andrew Linnell

Andrew Linnell is a co-founder of MysTech, an Anthroposophical organization seeking to realise Rudolf Steiner's indications on Mechanical Occultism. He serves as president of the Boston branch of the Anthroposophical Society.

I WOULD BE AN ANARCHIST IF I WERE NOT AN ANTHROPOSOPHIST

with Andrew Wolpert

Andrew Wolpert is an adult educator and art historian. He is the coordinator in Great Britain of the Humanities Section of the School of Spiritual Science.

CHRISTIANITY AS MYSTICAL FACT

with Debbie Elliott

16.15 - 17.45

15 & 29 October, 12 & 26
November, 10 December

This book was written by Rudolf Steiner, who said about it: "The title Christianity as Mystical Fact was one I gave to this work eight years ago, when I gathered together the content of lectures given in 1902. It was meant to indicate the special approach adopted in the book. Its theme is not just the mystical side of Christianity in a historical presentation. It was meant to show, from the standpoint of a mystical awareness, how Christianity came into being."
